Sir:

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to Assistant Commissioner for Patents, Washington, D.C. 20231 on September 23, 2002.

Hana Verny (Reg. No. 30,518)

STATEMENT

I, Hana Verny, Attorney of Record for the above identified patent application, state that upon periodical review of all files in the office, previously unrecognized error in filing a Request for Non-Publication concurrently with the filing of the full US and PCT application at the same date was discovered.

The filing of the Request for Non-publication was unintentional and apparently happened because originally Applicant considered filing only a US application with no corresponding

foreign filing. Shortly before the due date for filing the full application, the Applicant decided to also file the PCT application. The filing documents for the US application were already prepared and by oversight the Request for Non-publication was left in the filing documents. Revival of the unintentionally abandoned application under 37 CFR 1.213(c) is respectfully requested by filing the Petition to Revive Application under 37 CFR 1.137(f).

Respectfully submitted,

Date: September 23, 2002
